

Current Students:

PhD:

Weimin Fu

Research Assistant

Research Interests: modern compilers, computer architecture, hardware formal verification, Satisfiability Modulo Theories

Bio: Weimin Fu is currently pursuing his Ph. D. under the supervision of Dr. Xiaolong Guo in the Department of Electrical and Computer Engineering at Kansas State University. He completed his B.S. degree from Zhejiang University and his M.S. degree from George Washington University. His current research is focused on hardware security. He is interested in modern compilers, computer architecture, hardware formal verification, and Satisfiability Modulo Theories.

Zhaoxiang Liu

Research Assistant

Research Interests: Hardware Security, Information Flow Tracking

Bio: Zhaoxiang is currently pursuing a Ph.D. under the supervision of Dr. Xiaolong Guo in the department of Electrical and Computer Engineering, Kansas State University, His current projects include IFT and Logic Locking.
